The collective exhibition *Paisagens Inesperadas* inaugurates the space of the Gallery of Igreja do Sacramento in Chiado.

The initiative, curated by Adelaide Ginga, brings together works by Nuno Cera, Mariana Marote, Miguel Palma, Elisa Pône, Jorge Santos, André Sier and João Pedro Vale and Nuno Alexandre Ferreira, around the several visual reactions to the world around us. The exhibition explores the many dimensions of the landscape in different supports and techniques: from figurative to abstract and from real to fictional.
